Your class saved my retirement! My friend called me last night and she said this financial advisor would take her retirement and triple her investment. I told her that sounded risky. She said she didn't care about that as long she gets her 300%. I told her about your seminar and what I learned. **She emptied out her accounts and gave it to him. I was shocked. Her whole retirement savings are now outside the country. THANKS AGAIN FOR THE SEMINAR.** I appreciate you and Meaghan for teaching us. – Mylie, retired government employee
